What is a routing number?

In the US, Financial institutes and banks use routing numbers to identify the bank's details and locations. The nine digits number is printed on the bottom left corner of your check, and sometimes it is called routing transit numbers, RTNs, or ABA routing numbers. You can find the number explanation below in the chart.

Routing numbers are a way to assign unique numbers to the different types of banks and financial institutions to identify each payment issue from the banks. If you are planning to send some money globally, you need one number, and that is called a routing number.

Where to find your routing number?

Nowadays, routing numbers are available on the internet and their official websites to find them very quickly through it. Find your routing number at the bottom of your checks. There are several ways to find the routing number, and you can ask your bank online regarding routing your routing number. If you have activated your online banking, you can easily find your routing number information.

The image shows a sample check from "U.S.A. Bank". The check includes fields for the payee's name and address ("Jhone Doe", "Your Address", "Some Whare , U.S.A 12345"), the bank name, the amount in dollars, the date, the payee's name ("PAY TO THE ORDER OF"), and a memo field. At the bottom, there is a MICR line with the numbers "1 2 3 4 5 6 7 8 9 0 0 0 1 2 3 4 5 6 7 8 9 - 1 0 0 1". Three callout boxes identify specific parts of the check: "9 Digit Routing Number" points to the first nine digits of the MICR line, "Your Account Number" points to the next eight digits, and "Cheque No." points to the last four digits.
